

PACKAGING MACHINE

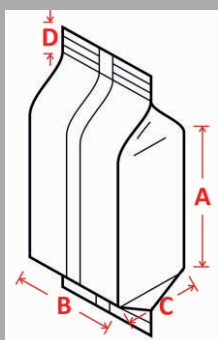

In June 2014 DIAMIX GROUP launched a new packaging machine to pack free-flowing materials in polyethylene bags

LET US PACKAGE YOUR PRODUCT!

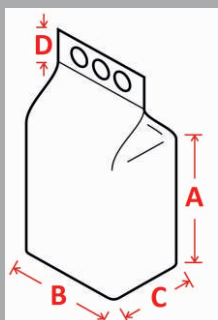

Outstanding characteristics:

1. Bag capacity: 2–40 liters
2. Production capacity: 50–500 bags/hour
3. Thickness of HD polyethylene film: 90–160 micron
4. Additional option: Finger grip
5. Bags can be made from pre-printed 6-colored film
